THE NORWAY ADVERTISER
(OXFORD COUNTY, ME.)

NUMBER 44 NOVEMBER 3, 1905, NORWAY AND SOUTH PARIS, MAINE. VOLUME XXXVI

FIRST AND LARGEST LOVELL-STONEHAM BUCK OF THE SEASON.

Norway and Western Railroad.

TO THE EDITOR OF THE ADVERTISER:
Dear Sir:—Having examined myself that under certain conditions a railroad from Norway to East Stoneham and South Waterford could be built and operated at a profit, I started in last spring to bring about that result. Without going into details it is enough to say that we encountered delays which no reasonable care could have foreseen or avoided, not the least of which was the active opposition of one property owner on the line, who, we were told, openly stated that he would stop us for eighteen months.
With the uncertainty incident to that opposition, and the delays from other causes, no sane man would think of constructing for bridge timber, ties, and other materials, until the Railroad Commissioners had actually approved the location, hence we could do nothing along that line until September 13th, the date when our location was approved. By that time the price of materials had greatly increased and we found that bridge timber could not be obtained at any price under three months time.
Having closely figured the cost of building the road, we did not propose to pay higher prices for timber, ties, and other materials involving extra expense of over \$20,000, when by reason of delay these materials can be obtained at reasonable prices.
For the above reasons, since September 13, we have been unable to secure much of the materials required, except at prices greatly in excess of the prices of last spring, and some of the materials could not be secured at any price in time to complete the road this fall.
To have built the bridges without completing the road and running trains over them, throughout the winter, would have been worse than useless, for the bridges would deteriorate very rapidly during the winter if not in daily use.
We desire to thank the people of Oxford County (with some few exceptions) for their uniform kindness and courtesy during our efforts to get the road started, and we again state in this public manner that we know just exactly what we are doing and that the road will be built.
Had our petitions in the matter of organization and location been granted in the usual way and without obstruction at the times they were filed, the road would have been completed and in operation to-day.
We are advised that our way is now clear, so far as any possible legal obstructions are concerned, and with the opening of spring we propose to complete the road, at the earliest possible moment.
We assure the people of Oxford County that nothing stands in the way of the completion of this road except the scarcity and excessive cost of materials at the present time.
W. G. RAND,
Treas. & General Manager.

Lake Navigation or Log Rights.

R. B. Stratton, of Rumford Falls, Civil Engineer for the P. & R. F. railroad, has been appointed by the Court to make a survey of the outlet of the lake. The survey includes that part of the lake lying this side of Crockett's Bridge. The map to be used in the trial of the case of A. Thompson vs. C. B. Cummings & Sons, to ascertain what right the cottage owners have as regards choking the channel with logs to the extension of the passage of boats.
The case was entered at the last term of court and the first act is to get a careful survey. The survey was commenced last Tuesday.
Messrs. Cummings contend they have the right under lease from the Norway & Western Railroad Co. to cover the lower lake, or bog, with logs. This is to be decided in the court.
The case undoubtedly will come to trial at the March term, Hon. A. S. Kimball is attorney for Mr. Thompson and C. E. Holt and Jerome Foster for C. B. Cummings & Sons.

"Have you the funny part of a Sunday paper?" This was asked last Monday night by a bright-eyed, pretty girl of ten summers. What she wanted of the funny part of a Sunday paper was a conundrum to us but she wanted it and got it, too. Her name was Josie Chase and she lives with two sisters, a mother and father on Paris street in the Lamrock house. We learned that her father, Henry Chase, moved here from Bridgton some two years ago. He formerly worked in the shoe factory but is now employed in picking apples on the Gurney farm in Hebron.

Charles E. Gilbert, during the 20 years employment in the Cummings yard at Norway, has piled enough lumber to extend 20 miles, or from Norway to Lewiston, the pile being 14 rods wide. Mr. Gilbert is 68 years old. He was born in Richmond, Canada, and since his fourteenth year has always worked in the lumber yards. He worked in the saw-mills at Richmond many years, but some 15 years of "stacking" lumber, together with his record at Norway, makes him a veteran at the business. Heavy boards fresh from the saw, and soaked with water from the lake, are not mere playthings to handle. Every one of them weighs from 40 to 70 pounds and the piles are considerably higher than a man's head.

ADDRESS FRANK L. GRAY

Discontent.

A servant then of sterling worth, To bid us from the hour of birth, You take from the mud and mire Of indolence, and lift us higher. You ever, ever, ever rest, But busy ever, day by day, You goad us upward on our way, To strive and labor for the best. But as a master, oh my soul, You drive us quite beyond the goal, You'd have us like the "rolling stone," That can't be "well enough" alone. For, out of place you're of no use, Your arrows dipped with poisoned darts Of strife and envy, pierce our hearts, Like fangs of serpents swarming loose.

CORA M. W. GREENLEAF.

A Song of the Rose Bush.
(Taken from Life).
There's a dew-damp England homestead And there twines above the door A rose bush of rare beauty. But her we saw and loved her so, She who placed it there with care Now has gone to her home above, But we treasure this sweet rose bush For the sake of her whom we did love.

When the rose bush buds and blossoms And the roses look their best, Then we can but think of the loved one Who is laid to rest. And her children, four in number Never, never forget to save The fairest of these roses To decorate their mother's grave. And all the while they can see the smile That ever beamed on her kind face, With roses sweet they try to meet Her death with angel grace.

Grand Lodge S. of T.
The Grand Lodge of Maine, Sons of Temperance, held its annual session with Oxford Division, No. 29, at Oxford, Thursday. There was a good number of delegates from the divisions of the State, particularly from Portland. The session opened in the forenoon with grand patriarch, Patrick Hayes of Chelsea, presiding.

Routine business was transacted, Grand Lodge degree was conferred and interesting and spiritual discussions on matters in the interest of the order and the continuance and growth of the order in our State. It was voted to raise the per capita tax to ten cents. Through the multiplications of various organizations in these days this temperance order is not as strong as it once was, and yet the faithful ones who have stood by the work for many years are disposed to continue, with the feeling that our prohibitory law will not be fully and permanently enforced except as temperance and particularly the young people.

The following officers were elected: G. W. P., Patrick Hayes, Chelsea; G. W. A., Mrs. Charles Hanson, Oxford; Scribe, Mrs. Annie L. Hayes, Chelsea; Treasurer, W. F. Pratt, Portland; Chaplain, Rev. Frederick Newman, Oxford; Conductress, Mrs. Cash, Oxford; secretary, H. S. Burgess, Portland; G. S. Y. P. W., Mrs. Kate Starbird, Oxford.

All Past Grand Worthy Patriarchs and Grand Worthy Associates, all Grand Worthy Patriarchs and Associates were elected delegates to the National Division in Toronto. The next Grand Division of Maine will be held in Portland. The people of Oxford Division were unbounded in their hospitality, furnished a good literary entertainment in the evening, and helped to make the session the grand success that it was.

Good intentions are not appreciated always in this life. A street car conductor found out last week. A team had backed to the creamery and was there when the electric car came along. After a moment's wait the conductor got off and went to the team leading it away to let the car go by. Just as the owner came out and, in vigorous language, denounced the conductor for stealing his team. Truly the way of the benefactor is hard.

AN OLD MAN'S TRIBUTE.
An Ohio Fruit Raiser, 78 Years Old, Cured of a Terrible Case After Ten Years of Suffering.

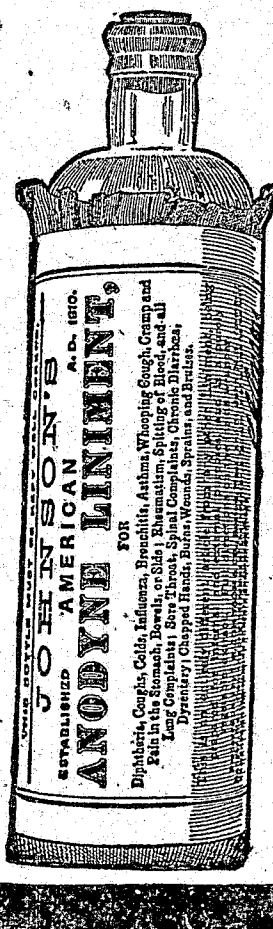

When suffering daily torture From backache, rheumatic pain, Any ill of kidneys or bladder, Turn to Doan's Kidney Pills. A cure endorsed by thousands. Read an old man's tribute.

Sidney Justus, fruit dealer of Mentor, Ohio, says: "I was cured by Doan's Kidney Pills of a severe case of kidney troubles. I suffered for eight or ten years' standing. I suffered the most severe backache and other pains in the region of the kidneys. These were especially severe when stooping or lifting anything, and often I could hardly straighten my back. The aching was bad in the daytime, but just as bad at night, and I was always lame in the morning. I was bothered with rheumatic pains and dropsical swelling of the feet. The urinary passages were painful, and the secretions were discolored and so free that often I had to rise at night. I felt tired all day. Half a box served to relieve me, and three boxes effected a permanent cure."

DOAN'S KIDNEY PILLS.
A FREE TRIAL of this great kidney medicine which cured Mr. Justus will be mailed on application to any part of the United States. Address: Foster-McLure Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

West Oxford Agricultural Society.

The annual meeting of the West Oxford Agricultural Society was held on Oct. 28. After listening to the usual reports the following officers were elected:

Pres.—H. D. Harnden, Fryeburg.
V. Pres.—A. R. Hill, Fryeburg.
Sec.—B. Walker McKee, Fryeburg.
Treas.—W. R. Farber, Fryeburg.
Trustees—George H. Walker, Fryeburg; J. Howard Woodward, Conway; John Pillsbury, Bridgton; Ben. F. Knight, Sweden; N. T. Fox, Lovell; T. F. Dresser, Stow; W. E. Deacy, Denmark; Granville G. Mansfield, Brownfield.
Member of Finance for three years—C. E. Fox, Fryeburg.

But few changes were made in the officers. At the close of the society meeting, the trustees met and it being so late in the day, an adjournment was made to the last Saturday in November. Great efforts will be made by the present management to make early and full arrangements for the fair of 1906. The officers appear to be a unit in the conviction that much work must be done to again fill the grounds and halls with large and attractive exhibits.

Never in the history of the society has its future looked brighter than at the present time and with all its obligations fully met and a balance on hand, with no floating debt, it can well afford to give its patrons the best fair of the season of 1906.

BRYANT'S FOND.

Seriously Injured by a Horse. Archie Felt met with a serious and very near a fatal accident, Monday morning. When the day was put in his stable, it was filled entirely over the places to feed down, many feet deep. He had a place through, but wanted to get it larger. He had cut it, and took his fork to feed down and in some way the bay gave way, and he fell through striking on the edge of the crib and going down under the horses feet. She was terribly frightened, rearing and plunging on and over him. His clothes were badly torn, his legs skinned and bruised and a strike on his face just below the cheek bone. A doctor was called, and said it was a miracle that he got out alive, with one cracked rib, that the place hurt on the back of his head was a close call, as the bone on his cheek, and he wondered that he escaped without two broken legs. He is confined to his bed, but in hopes not to be very long.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmor's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmor's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmor & Co., Binghams, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmor's Swamp-Root, and the address, Bingham, N. Y., on every bottle.

Look at our bottles at \$1.00 and \$2.00. 12 1-2

The whole is a quotation from John Greenleaf Whittier.
Send the answer to PUZZLER, Box 55, West Bethel, Maine, and inclose a 2 cent stamp if competing for a prize.

To the first solver I will send an illustrated magazine; to the 5th, The Family Doctor Book; to the 10th, Dora Thorne; to the 15th, Cast Up by the Sea; to the 20th, The Fortunes of Rachel; to the 25th, Dick Onslow among the Indians; to each of the next five, if more than 25 send the answer, I will send special prizes.

The answer to the enigma which appeared in the ADVERTISER dated Oct. 6, is, "Behind the clouds the starlight lurks, Through showers the sunbeams fall."

The puzzle must have been a hard tangle to untie, for this is the list of solvers: 1. Mrs. Geo. R. Faine, Baldwinville, Mass. 2. Allie S. Kimball, South Waterford. 3. Mrs. O. M. Godwin, Castello, Mass.

No prize was offered in October for the first solution, so for once I have no winner's names to announce.

Now I hope not less than 40 will send the correct answer to this enigma before Nov. 20th, and to aid the solvers I will say that the first key word is not blow or gale, the third is not stop or rest, the fifth is not ill, the sixth is not bark, the eighth is not pipe, the twelfth is not vast or wide, and the answer consists of nine words.
